EVIDENCE 08: EVIDENCE REGISTER & CORROBORATION

Index of fictional items and current evidentiary status

Case reference: FIC-MC-017/2026 | Fictional training scenario | Not real evidence

Register

• E-01 Incident report and timeline: fictional account; timestamps are scenario details.

• E-02 Park CCTV review log: simulated observations; no actual video supplied.

• E-03 Shop audio transcript: entirely simulated; no source audio supplied.

• E-04 Witness summaries: fictional and unverified.

• E-05 Traffic-camera note: fictional lead; no actual footage supplied.

• E-06 Interview excerpts: invented for role-play; not actual interview records.

• E-07 AI case-priority report: illustrative scores only; not validated model output.

Corroboration matrix

• Timing: compare independently verified CCTV clocks, witness estimates, and call records.

• Person identity: require clear, lawfully obtained evidence and independent verification; clothing alone is insufficient.

• Audio: compare any transcript to the original recording; preserve inaudible segments rather than guessing.

• Route: compare camera observations with independently verified route and timing information.

• AI output: verify source quality and rationale; human reviewer remains accountable.

Current conclusion

The scenario provides leads for investigation, not proof against any person. No item in this pack should be described as authenticated real-world evidence.

Chain-of-custody template

Item ID | Collector | Date/time collected | Original source/device | Hash | Transfers/access log | Analysis performed | Reviewer | Storage location

Integrity notice: This document is a fictional prop for a classroom skit. It is not an actual police record, forensic report, CCTV export, audio recording, or witness statement. Descriptions and transcripts below are simulated.
