EVIDENCE 04: WITNESS STATEMENTS

Three fictional witness summaries for role-play

Case reference: FIC-MC-017/2026 | Fictional training scenario | Not real evidence

Witness A: balloon vendor

Says they noticed a child near the park path around the early evening and later saw an adult in a yellow shirt near the service-road side. They cannot confidently identify the adult or say the adult interacted with the child.

Witness B: security guard

Says the park was busy and people were moving through several exits. Their recollection of the exact time is uncertain; they did not see a confirmed abduction.

Witness C: shop employee

Reports hearing raised voices or indistinct conversation from outside the shop. They cannot reliably identify the speakers or determine the words spoken.

Interview safeguards

- Treat each statement as an unverified lead until corroborated.
- Interview witnesses separately and record their own words without suggesting details.
- Ask about vantage point, lighting, distance, time certainty, and confidence.
- Do not treat nervousness, eye contact, pauses, or facial expression as proof of lying.

Status

These summaries are fictional and are not signed statements. No real people have been interviewed for this pack.

Integrity notice: This document is a fictional prop for a classroom skit. It is not an actual police record, forensic report, CCTV export, audio recording, or witness statement. Descriptions and transcripts below are simulated.
