2. CONCISE STATEMENT OF FACTUAL OCCURRENCE (SUBSTANTIVE COMPLAINT)

On 14-Oct-2026 at approximately 20:45 IST, Dr. Arvind Swaminathan was notified that the central digital telemetry monitoring unit for Ward 4B (Pediatric Intensive Care Unit) suffered an abrupt unauthorized override. Concurrently, the oxygen saturation and ECMO extracorporeal life-support loop connected to 8-year-old patient Master Aarav Sharma was physically sabotaged and disconnected at Bed 04. An extortion communication was delivered demanding ■2.5 Crores (Two Crores Fifty Lakhs) and 500,000 USDT in cryptocurrency within 4 hours, failing which the child's vital oxygen loop would be remotely purged. Master Aarav Sharma suffers from severe post-operative myocarditis and is incapable of spontaneous respiration. Any cessation of specialized arterial pressure support results in fatal cardiac collapse within a 4-hour clinical threshold. Staff Nurse Anjali Nair witnessed suspect Rohan Verma tampering with the ventilator telemetry sub-station at 20:56 IST. Biometric access records verify Badge #BT-8842 entered the server room at 20:58:14 IST. This constitutes deliberate Kidnapping for Ransom, Cyber Extortion, and an immediate existential threat to human life engaging fundamental rights under Article 21 of the Constitution of India.
